Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3-4, and 8, drawn to call conferencing, classified in class 455, subclass 416.
 - II. Claims 2, 6-7, and 9, drawn to call privacy, classified in class 455, subclass 411.

The inventions are distinct, each from the other because of the following reasons:

Because they have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

2. During a telephone conversation with Robert J. Mauri on 02/12/2004 a provisional election was made to prosecute the invention of Group I, claims 1, 3-4, 8. Affirmation of this election must be made by applicant in replying to this Office action. Claims 2, 6-7, 9 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2681

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 3-4, and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by

Bradshaw, Jr. (U.S. Patent No. 6,608,820).

Regarding claims 1, 3-4, and 8, Davison et al. disclose a method and apparatus for controlling multi-party conference calls includes circuitry which is operable according to a new conference call protocol. Figure 1 shows a system diagram of a wireless communication network illustrating one aspect of the present invention. A controlling party (Cg Pty) is in communication with a first subject party (CP1), a second subject party (CP2) and a third subject party (CP3). The controlling party is communicating through mobile station 102 while the first, the second and the third subject parties are communicating through mobile stations 104, 106 and 108, respectively. The controlling party and the three subject parties are in a four-way conference call. As seen in FIG. 1, a plurality of virtual communication paths 1, 2, 3, 4, 5 and 6 illustrates that each mobile station is in communication with the other mobile station in a conference call [col. 3, lines 49-62]. In cellular conference call, it is inherent that the requesting subscriber sends along with the request for call conferencing an identification (e.g. MIN) of the requesting subscriber and ID of the talkgroup (see U.S. 6,308,079 – col. 4, lines 40-54).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2681

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
